The "beautiful snow" has gone and the birds are coming on.
The busy plumb's laid away to rest;
The painter's at his song, and the boy is kickin' on.
PICKIN' briekats to bombard the robin's nest.

SEVERAL professional burglars have been arrested at Mt. Sterling.

The outlook for a good crop of wheat in Fleming County is very encouraging.

It is expected that travel on the Pound Gap Railroad will be resumed next Monday.

The DAILY BULLETIN may be had every afternoon at Holiday & Stevens' grocery store, in Chester.

EARLY spring vegetables are getting to be abundant and the prices are going steadily downward. Even printers may buy them after while.

At Wichita, Kan., they have commenced burning churches on account of the enforcement of a prohibition liquor law, which was advocated from the pulpit.

One of the neatest pieces of painting in the city this season is the residence of Dr. Charles Wardle, of east Maysville. The work was done by Mr. James Smith Jr.

A TERRIFIC hailstorm passed over Middlesburg Monday afternoon. The people were panic stricken and many of them went into the cellars for safety. There was however little damage done.

The East Kentucky News says the speech delivered by Neal, when the sentence of death was pronounced upon him, was the repetition of a speech prepared for him by Craft over a year ago.

Mrs. MARGARET Hough has secured the agency for Dr. Dutton's Vegetable Discovery, the best medicine of the kind now in the market for all diseases, such as liver complaint, dyspepsia, worms, female complaints, kidney affections, consumption, eruptions, scrofula, constipation, sick headache, rheumatism, nervousness and dropsy. This medicine is now for sale at Miss Anna Frazer's dry goods and notions store.

New Packet.

The new Maysville and Augusta packet, Hattie Brown, entered her regular trade this morning. She was built at Wheeling by Capt. M. B. Brown, who is to command her, and is a very swift and neat little steamer. She is 120 feet in length, with a beam, including the guards, of 24 feet. The cabins which are 20x11 feet and 18x14 respectively, are on the lower deck. There are two steel boilers 18 feet in length and an engine of 10 inch cylinder and 4 feet stroke. The steam pressure allowed is 180 pounds. The boat will run, it is believed, at the rate of ten miles an hour up stream. Capt. M. L. Brown is the pilot. The enterprise, we hope, will be a profitable one.

There will be a mass meeting of the Sunday schools of Maysville held in the Presbyterian church, on next Sunday afternoon, May 11th, at three o'clock, under the auspices of the Mason County Sunday School Union. Pastors and superintendents will give joint service to their congregations and schools. The singing will be under the conduct of Mr. G. S. Judd. Gospel hymns will be used. The numbers opposite the names of songs denote numbers in that book:

Song—"He Will Hide Me".
Song—"I'm a Poor Man".
Song—"Biting in Their".
Song—"Jesus is Coming".
Song—"Our Country".
Song—"I'm a Poor Man".

PERSONALS.

Mr. William McClanahan has recovered sufficiently to be able to leave his room.

Mrs. Chester Bland, who has been visiting her mother, Mrs. W. N. Howe, has returned home.

Mr. Charles Phister is moving to-day from his home on Mt. Holyoke, to his new residence on West Third street.

Mrs. Alice D. Orr, one of the most competent instructors in the State, will open a school at Flemingsburg this fall. The people of that place are to be congratulated upon securing so good a teacher.

Mr. George T. Hunter, who is a good natural man always, is in an extra good humor to-day, and it is not over the receipt of a handsome order for the excellent flour made at his mill, but over something handsomer and of a more pleasant nature. He has the congratulations of his friends.

ADJACENT COUNTIES.

YANKEEBURG, LEWIS COUNTY.

The little steamer Katie Frazer is a convenience to the traveling public between Middlesburg and Vaneburg. She has all she can do.

The Lewis County Sunday School Convention will meet in Vaneburg, the 4th, 5th and 6th of July.

There is now in training a gun ship that equals, if not exceeds, the present ships of the country. At all events we will back our just cause with the might of our neighbors.

The famous watch and pistol dog of Mr. James Todd is dead, but, because of his incurred the enmity of eight walkers. He was a good dog, a watchman to be murdered by such persons.

Our commercial, as well as religious, community is growing over the country around the Springs and deservedly popular with tourists. We are well situated for pleasure and relaxation. Her mother was an old scholar of the Mayaville Seminary.

The untimely death of Miss Stella Jones, of Eastern Springs, by drowning in the Ohio river, on Sunday, April 30th, was a painful and sad calamity. She was a young girl, full of life and health, and the Springs deservedly popular with tourists.

Her mother was an old scholar of the Mayaville Seminary.

Judge Reid addressed a large audience at the court house last night in a speech of about an hour's length. He reviewed in detail the recent unfortunate occurrence at Mt. Sterling, in which he was involved, and spoke at length on the importance of his action.

The speech was listened to with great interest and was delivered in an able and pleasing manner.

An Overplus of American Talent.

Wheeling Intelligencer.

When you come to look the field over there is a great deal of Presidential timber in both parties. There is a wealth of talent and integrity in this great country.

Snuff.

New York Sun.

It takes fully seven months to convert tobacco into snuff, and it goes through most elaborate preparations before it is presented to the public. Few people are probably aware that, after the same manner of beer, tobacco is allowed to stand in barrels for a long time, and is kept in this condition for at least six months, after which it is subjected to a steam temperature of 240 degrees. When it is finally dry it has to be ground, and is then made into iron filings. Over 400 women and boys are engaged in one snuff factory in Jersey City.

UNBELIEF.

There is no unbelief; Whoever plants a seed beneath the sod And waits, he'll see it grow— By God's grace.

He tries in, when clouds are in the sky, To make his seed breaketh by and by.

Trusts the Most High.

Whoever sees 'neath winter's field of snow, The silent harvest of the frosty growth—

Whoever lies down on his couch to sleep, Knows God will keep.

Whoever says, "To-morrow, The Un-

"The Future," trusts power alone.

Some Attention to Kentucky Has Over the Western Slave States.

From the Kentucky Real Estate Journal.

The soil is more fertile. Living is twenty-five per cent cheaper.

The climate is much milder and more healthy.

The seasons for farm work are much longer, giving the farmer more time to do his work, making his occupation a comfortable and pleasant one, instead of the hard and slavish one which the farmer in the north has to undergo.

There is a great variety of crops.

The land is cheaper by one hundred per cent.

The natural resources of the State are almost untouched.

Events upon the finest system of rivers in the world.

A geographical situation which gives it good markets in every direction.

Tobacco Production of America.

A report issued by the commissioner of Agriculture, places the entire production of tobacco in the United States during the year 1882, at \$13,077,595 pounds.

The value of the tobacco produced is placed at \$41,380,051, but this fails to reach the total market value of the crop, which was closer to \$60,000,000. From this report we learn that twenty-six states produce tobacco in some amount, and Virginia is not equalled in anything, while she produces more than a number of the states enumerated. The seed leaf producing states are credited with close to 75,000,000 pounds. Pennsylvania leads with 31,000,000 pounds, followed by New York, with 29,000,000 pounds, Ohio with 33,000,000 pounds, North Carolina with 32,000,000 pounds, Tennessee 31,000,000 pounds, and Maryland 29,000,000 pounds.

The least amount credited to any one state is Florida—24,239 pounds, while Michigan in a much colder climate, produces 45,000,000 pounds. West Virginia is produced for 18,900,000 pounds, Indiana for 17,500,000, Illinois with 3,848,000. It is certainly strange that such states as Georgia, South Carolina, Alabama, Arkansas, Louisiana, Texas, Mississippi and Arkansas, should be tobacco producers.

Climate is certainly strongly in their favor, and undoubtedly there is plenty of land to be found in any one of them, suitable for tobacco culture. None can doubt that it will pay better than many other crops grown—in fact, we think it would pay as well, if not better, than cotton, even if they grew the common export grades. The seven States which produce the largest amount of tobacco are, however, not the ones which produce the most, as the State of Illinois, hardly more than the one State of Virginia, produces more than the combined production of the seven.

It is evident that the tobacco culture of Kentucky is not to be despised.

Mr. George T. Hunter, who is a good natural man always, is in an extra good humor to-day, and it is not over the receipt of a handsome order for the excellent flour made at his mill, but over something handsomer and of a more pleasant nature. He has the congratulations of his friends.

THUS ARE WE INSULTED.

Our Flag Hauled Down and Our Subjects Imprisoned.

Stories of Outrage Perpetrated by the Mexican Authorities on the United States Schooner *Rebecca* at Tampico.

GALVESTON, Tex., May 7.—Captain DuJay of the American schooner *Rebecca* of Galveston, in a communication to the New York Tribune, relates the story of outrage and imprisonment at the hands of the Mexican authorities at Tampico, February 17, last. The schooner in distress had been putting into Tampico, carrying regular clearing papers from Brashear, La., for Tampico, but had thirty packages of merchandise for delivery at Brownsville, Tex., which port was closed to all shipping because of the rough weather and dangerous bar. The Collector at Tampico forcibly took the thirty packages, consisting of tobacco and other articles, from the incoming discharge of the entire cargo. Captain DuJay was arrested on the charge of an attempt to smuggle and confine under guard, but was released the same day on the intervention of the American Minister and Consul. The Judge before whom DuJay was tried, insinuating, refused to allow the American Consul to be present during the trial or in prison during the trial. After a litigation lasting over forty days, the Judge decided that the goods must pay duty, DuJay protesting that he had paid it. On April 11, the Mexican authorities, breaking the schooner, hauled down the American flag and embargoed the vessel. DuJay appealed to the American Consul, who placed the crew on board another vessel, and they returned to the United States, leaving the crew with the Consul and the vessel in the hands of the Mexicans. He thinks but for the efforts of Minister Morgan and Cassard that he would be still confined in a Mexican prison.

MEXICAN OUTRAGES.

Shooting Officials and Wrecking Trains for Pastime.

EL PASO, Tex., May 7.—On the evening of the 20th ult., Dr. M. M. Gandy, General Superintendent of the Mexican Telegraph Road, was shot at by a Mexican while sitting on the rail of his car on the lower part of the track. The ball only missed him by a few inches. The man stopped the train and caught the fellow, who said he did not know whom he had shot, but said it just took a notion to shoot something. He was lodged in jail until the next day, when he was allowed to leave. His trial was adjourned. Last week an attempt was made to wreck the pay train below Zacatecas, but the express being late, a construction train was wrecked instead. The express train was killed; one passenger was killed and fifteen wounded. Four of the latter have died, and the others are not expected to live. It is thought that the affair may be Mexican, as the train all the killed and wounded were Americans except one Mexican who had his hand skinned. These are to be examined by railway officials at Puebla del Norte, but it is hard to get full particulars.

Saturday afternoon the directors went down the road in a special train, accompanied by El Paso capitalists. The officials advised that the train would be held on the 4th, but left on the night of the 3d. Yesterday it was reported that the special train will wreck on the morning of the 4th. A man was killed, and Dr. D. C. Johnson, general manager, was assassinated. The railway says there is no foundation for the report. The general Government of Mexico has issued a general order of "Jeze Politics" of all places along the road to take precautionary measures to prevent malicious work.

COAL TRADE CLOSED.

Eight Thousand Miners to be Thrown Out of Employment.

IRVINGTON, Pa., May 7.—This week will probably see the coal miners of the Monongahela River, John Walton & Co.'s mines, second pool, shut down tomorrow, and those of O'Neill & Co., which have been idle for several weeks on account of a reduction being offered the miners, will not resume until the fall trade opens.

Miners of the fourth pool are still on a strike, and the operators are making no effort toward a settlement. The consequence of the general stoppage of towboats to be freed up in a few days and the crews discharged, over eight thousand miners will be thrown out of employment.

Destructive Rainfall in the West.

LITTLE ROCK, Ark., May 7.—A terrible hail and rain storm visited this city yesterday afternoon, causing a large amount of damage. Within the space of fifteen minutes water an inch deep covered some of the principal streets from curb to curb. Reports are now afoot that all the rivers and streams are at a full flood and an overflow is imminent. The Arkansas River at this point is within five feet of the highest water mark during the year. The Arkansas is a steady stream, and creates considerable uneasiness among the planters in the Arkansas Valley. The destruction to crops by water has already been great, and should the rainfall continue much longer, an overflow equal to that of February is predicted.
